RATES**

**EFFECTIVE
FOR BILLING
March 31, 2019**

CITY OF KINGS MOUNTAIN, N.C.
SCHEDULE 1
RESIDENTIAL SERVICE
Effective with March 31, 2019 Billing

AVAILABILITY

Available only to residential customers in residences, condominiums, mobile homes, or individually-metered apartments.

TYPE OF SERVICE

The City will furnish 60 Hertz service through one meter, at one delivery point, at one of the following approximate voltages where available:

Single phase, 120/240 volts; or
3 phase, 208Y/120 volts; or other available voltages at the City's option.

Motors in excess of 2 HP, frequently started, or arranged for automatic control, must be of a type to take the minimum starting current and must be equipped with controlling devices approved by the City.

Three phase service will be supplied, if available. Where three phase and single phase service is supplied through the same meter, it will be billed on the rate below. Where three phase service is supplied through a separate meter, it will be billed on the applicable General Service Schedule.

RATE:Basic Facilities Charge \$ 9.00
First 350 kWh @ \$ 0.0967 per kWh
Next 950 kWh @ \$ 0.0950 per kWh
All over 1300 kWh @ \$0.0895 per kWh

* For customers receiving Supplemental Security Income (SSI) under the program administered by the Social Security Administration and who are blind, disabled, or 65 years of age or over with a combined annual income per household of less than \$20,000, and have a minimal electrical charge of \$10.00 will be considered for this discount. Each applicant must successfully complete the City of Kings Mountain's Residential Service (SSI) Discount Application. Once approved, the applicant shall receive once per month, a discount of \$10.00 on the electrical charges.

RESIDENTIAL SERVICE (Continued)

FUEL (ENERGY) RIDER

The City's approved FUEL (ENERGY) charge over or under the Rates set forth above, if any, will apply to all service supplied under this Schedule.

EXCESS CAPACITY CHARGE

Demand meters may be installed by the City on any installation served under this Schedule. When the measured hourly demand in any month exceeds 10 kW, a charge of \$2.00 will be made for each whole kW in excess of 10, which charge will be in addition to the charge for the kWh used.

SOLAR APPLICATIONS

The City's Energy Department must approve any and all solar installations prior to construction.

BACKSTAND GENERATION

The City's Energy Department must approve any and all generation installations that tie directly back to the service connection to insure proper transfer switches and safety measures are in place.

CODE OF ORDINANCES

For other rules and regulations regarding City supplied electrical service, can be seen in the City of Kings Mountain's Code of Ordinance

SALES TAX

Any applicable North Carolina Sales Tax will be added to the above charges.

CONTRACT PERIOD

The original terms of this contract shall be one year and thereafter until terminated by either party on thirty days written notice.

Effective for billing on or after March 31, 2019.

CITY OF KINGS MOUNTAIN, N.C.
SCHEDULE 2
RESIDENTIAL SERVICE ALL-ELECTRIC
Effective with March 31, 2019 Billing

AVAILABILITY

Available only to residences, condominiums, mobile homes, or individually-metered apartments, in which the energy required for all water heating, cooking, and environmental space conditioning is supplied electrically. Any other energy source utilized is not permissible in order to receive this rate schedule.

Service under this Schedule shall be used solely by the individual customer in a single residence, condominium, mobile home, or a single apartment, and all electric energy used in such dwelling must be recorded through a single meter.

To qualify for service under this Schedule, the environmental space conditioning system and a separate electric water heater must be permanently installed in accordance with sound engineering practices and the manufacturer's recommendations, and both shall meet the following conditions:

Electric Space Heating:

1. Room-type systems shall be controlled by individual room thermostats.
2. Heat pumps shall be controlled by two-stage heating thermostats, the first stage controlling compressor operation and the second stage controlling all auxiliary resistance heaters. Auxiliary heaters shall be limited to 48 amps (11.5 kW at 240 volts) each and shall be switched so that the energizing of each successive heater is controlled by a separate adjustable outdoor thermostat. A manual switch for by-pass of the first stage and the interlock of the second stage of the heating thermostat will be permitted.
3. Excess heating capacity (15% more than total calculated heat losses) may be disconnected at the option of the City.
4. The residence shall be insulated so that total heat losses (as calculated by the current edition of ASHRAE Guide) shall not exceed 0.158 watts (0.539 BTUH) per square feet of net heated area per degree F. temperature differential. Duct or pipe losses shall be included in the computation of total heat losses.

RESIDENTIAL SERVICE - ALL-ELECTRIC (Continued)

Electric Domestic Water Heater:

1. Water heaters shall be of the automatic insulated storage type, of not less than 30 gallon capacity, and may be equipped with only a lower element or with a lower element and an upper element.
2. Heaters having only a lower element may have wattages up to but not exceeding the specific wattages as shown below for various tank capacities:

<u>Tank Capacity in Gallons</u>	<u>Maximum Single Element Wattage</u>
30 - 39	3500
40 - 49	4500
50 and larger	5500

3. Heaters having both a lower and an upper element may have wattages in each element up to but not exceeding the specific wattages set forth in the table above for single element heaters, but they must have interlocking thermostats to prevent simultaneous operation of the two elements; however, if the sum of the wattages of the two elements does not exceed the specific wattages for single element heaters set forth in the table above, no interlocking device will be required.
4. Heaters of 120 gallons capacity and larger shall be subject to special approval.

TYPE OF SERVICE

The City will furnish 60 Hertz service through one meter, at one delivery point, at one of the following approximate voltages where available:

Single-phase, 120/240 volts; or
3 phase, 208Y/120 volts; or other available voltages at the City's option.

Motors in excess of 2 HP, frequently started, or arranged for automatic control, must be of a type to take the minimum starting current and must be equipped with controlling devices approved by the City.

Three phase service will be supplied, if available. Where three phase and single phase service is supplied through the same meter, it will be billed on the rate below. Where three phase service is supplied through a separate meter, it will be billed on the applicable General Schedule.

RESIDENTIAL SERVICE - ALL-ELECTRIC (Continued)**RATE:**

Basic Facilities Charge \$ 9.00

First 350 kWh @ \$0.0967 per kWh

Next 950 kWh @ \$0.0867 per kWh

All over 1300 kWh @ \$0.0850 per kWh

* For customers receiving Supplemental Security Income (SSI) under the program administered by the Social Security Administration and who are blind, disabled, or 65 years of age or over with a combined annual income per household of less than \$20,000, and have a minimal electrical charge of \$10.00 will be considered for this discount. Each applicant must successfully complete the City of Kings Mountain's Residential Service (SSI) Discount Application. Once approved, the applicant shall receive once per month, a discount of \$10.00 on the electrical charges.

FUEL (ENERGY) RIDER

The City's approved FUEL (ENERGY) charge over or under the Rates set forth above, if any, will apply to all service supplied under this Schedule.

EXCESS CAPACITY CHARGE

Demand meters may be installed by the City on any installation served under this Schedule. When the measured hourly demand in any month exceeds 10 kW, a charge of \$2.00 will be made for each whole kW in excess of 10, which charge will be in addition to the charge for the kWh used.

SOLAR APPLICATIONS

The City's Energy Department must approve any and all solar installations prior to construction.

BACKSTAND GENERATION

The City's Energy Department must approve any and all generation installations that tie directly back to the service connection to insure proper transfer switches are in place.

RESIDENTIAL SERVICE - ALL-ELECTRIC (Continued)

CODE OF ORDINANCES

For other rules and regulations regarding City supplied electrical service, can be seen in the City of Kings Mountain's Code of Ordinance

SALES TAX

Any applicable North Carolina Sales Tax will be added to the above charges.

CONTRACT PERIOD

The original terms of this contract shall be one year and thereafter until terminated by either party on thirty days written notice.

Effective for billing on or after March 31, 2019.

CITY OF KINGS MOUNTAIN, N.C.
SCHEDULE 3-1
SMALL GENERAL SERVICE (<100 kW)
Effective with March 31, 2019 Billing

AVAILABILITY

Available to the individual customer with a monthly demand of 100 kW or less in any three months of the preceding twelve months.

Service under this Schedule shall be used solely by the contracting customer in a single enterprise, located entirely on single contiguous premises.

This Schedule is not available to the individual customer who qualifies for a residential schedule; and power delivered hereunder shall not be used for resale or exchange or in parallel with other electric power, or as a substitute for power contracted for or which may be contracted for under any other schedule of the City, except at the option of the City, under special terms and conditions expressed in writing in the contract with the Customer.

The obligations of the City in regard to supplying power are dependent upon its securing the retaining all necessary rights-of-ways, privileges, franchises and permits, for the delivery of such power, and the City shall not be liable to any customer or applicant for power in the event it is delayed in, or is prevented from furnishing the power by its failure to secure and retain such rights-of-way, rights, privileges, franchise, and permits.

TYPE OF SERVICE

The City will furnish 60 Hertz service through one meter, at one delivery point, at one of the following approximate voltages, where available:

Single-phase, 120/240 volts; or

3 phase, 208Y/120 volts, 480Y/277 volts; or

3 phase voltages other than the foregoing, but only at the City's option, and provided that the size of the Customer's contract warrants a substation solely to serve that Customer, and further provided that the Customer furnish suitable outdoor space on the premises to accommodate a ground-type transformer installation, or substation, or a transformer vault built in accordance with the City's specifications.

The type of service supplied will depend upon the voltage available. Prospective customers should ascertain the available voltage by inquiry at the office of the City before purchasing equipment.

SMALL GENERAL SERVICE (Continued)

Motors of less than 5 HP may be single-phase. All motors of more than 5 HP must be equipped with starting compensators and all motors of more than 25 HP must be of the slip ring type except that the City reserves the right; when in its opinion the installation would not be detrimental to the service of the City, to permit other types of motors.

RATE:

Minimum Demand 30 kW
Minimum Bill \$ 1.67 per kW

I. Basic Facilities Charge \$ 13.46

II. First 30 kW Billing Demand No Charge
All over 30 kW of Billing Demand \$ 4.49 per kW

III. For the First 125 kWh per kW billing demand per Month

First 3,000 kWh @ \$ 0.1231 per kWh
Next 87,000 kWh @ \$ 0.0755 per kWh
All Over 90,000 kWh @ \$ 0.0648 per kWh

For the next 275 kWh per kW billing demand per Month

First 6,000 kWh @ \$ 0.0731 per kWh
Next 134,000 kWh @ \$ 0.0709 per kWh
All Over 140,000 kWh @ \$ 0.0614 per kWh

For all over 400 kWh per kW billing demand per Month

All kWh @ \$ 0.0581 per kWh

FUEL (ENERGY) RIDER

The City's approved FUEL (ENERGY) charge over or under the Rates set forth above, if any, will apply to all service supplied under this Schedule.

DEFINITION OF "MONTH"

The term "month" as used in the Schedule means the period intervening between meter readings for the purposes of monthly billing, such readings being taken once a month.

SMALL GENERAL SERVICE (Continued)**DETERMINATION OF BILLING DEMAND**

The City will install a permanent demand meter when the monthly consumption of the Customer equals or exceeds 3,000 kWh, or when tests indicate a demand of 15 kW or more; however, at its option, the City may install such a meter for any Customer served under this Schedule.

The demand for billing purposes each month shall be the greater of: (a) the maximum integrated thirty-minute demand in the current month, (b) 50 percent of the customer's contract demand, or (c) 30 kilowatts.

MINIMUM BILL

The minimum bill shall be one of the following at the City's option:

- (a) \$ 1.67 per kW per month of contract demand. The City will choose this option when a demand meter is to be installed and when its standard long form contract is used. If the Customer's measured demand exceeds the contract demand, the City may, at any time, establish the minimum as covered in (b) below.
- (b) \$ 1.67 per kW per month of the maximum integrated demand in the previous twelve months, including the month for which the bill is rendered. The City will choose this option when a demand meter is to be installed and when its standard long form contract will not be used.
- (c) Not less than \$50.10.

POWER FACTOR CORRECTION

When the average monthly power factor of the Customer's power requirements is less than 85 percent, the City may correct the integrated demand in kilowatts for that month by multiplying by 85 percent and dividing by the average power factor in percent for that month.

SOLAR APPLICATIONS

The City's Energy Department must approve any and all solar installations prior to construction.

SMALL GENERAL SERVICE (Continued)

BACKSTAND GENERATION

The City's Energy Department must approve any and all generation installations that tie directly back to the service connection to insure proper transfer switches and safety measures are in place.

CODE OF ORDINANCES

For other rules and regulations regarding City supplied electrical service, can be seen in the City of Kings Mountain's Code of Ordinance

SALES TAX

Any applicable North Carolina Sales Tax will be added to the above charges.

CONTRACT PERIOD

Each customer shall enter into a contract to purchase electricity from the City for a minimum original term of one (1) year, and thereafter from year to year upon the condition that either party can terminate the contract at the end of the original term, or at any time thereafter, by giving at least sixty (60) days previous notice of such termination in writing; but the City may require a contract for a longer original term of years where the requirement is justified by the circumstances.

Effective for billing on or after March 31, 2019.

CITY OF KINGS MOUNTAIN, N.C.
SCHEDULE 3-2
MEDIUM GENERAL SERVICE (100 kW-500 kW)
Effective with March 31, 2019 Billing

AVAILABILITY

Available to the individual customer whose monthly demand is 100 kW or greater in any three months of the preceding twelve months but is less than 500 kW.

Service under this Schedule shall be used solely by the contracting customer in a single enterprise, located entirely on single contiguous premises.

This Schedule is not available to the individual customer who qualifies for a residential schedule; and power delivered hereunder shall not be used for resale or exchange or in parallel with other electric power, or as a substitute for power contracted for or which may be contracted for under any other schedule of the City, except at the option of the City, under special terms and conditions expressed in writing in the contract with the Customer.

The obligations of the City in regard to supplying power are dependent upon its securing the retaining all necessary rights-of-ways, privileges, franchises and permits, for the delivery of such power, and the City shall not be liable to any customer or applicant for power in the event it is delayed in, or is prevented from furnishing the power by its failure to secure and retain such rights-of-way, rights, privileges, franchise, and permits.

TYPE OF SERVICE

The City will furnish 60 Hertz service through one meter, at one delivery point, at one of the following approximate voltages, where available:

Single-phase, 120/240 volts; or

3 phase, 208Y/120 volts, 480Y/277 volts; or

3 phase voltages other than the foregoing, but only at the City's option, and provided that the size of the Customer's contract warrants a substation solely to serve that Customer, and further provided that the Customer furnish suitable outdoor space on the premises to accommodate a ground-type transformer installation, or substation, or a transformer vault built in accordance with the City's specifications.

The type of service supplied will depend upon the voltage available. Prospective customers should ascertain the available voltage by inquiry at the office of the City before purchasing equipment.

MEDIUM GENERAL SERVICE (Continued)

Motors of less than 5 HP may be single-phase. All motors of more than 5 HP must be equipped with starting compensators and all motors of more than 25 HP must be of the slip ring type except that the City reserves the right; when in its opinion the installation would not be detrimental to the service of the City, to permit other types of motors.

RATE:

Minimum Demand 30 kW
Minimum Bill \$ 56.07

I. Basic Facilities Charge \$ 56.07

II. First 30 kW Billing Demand No Charge
All over 30 kW of Billing Demand \$ 5.32 per kW

III. For the First 125 kWh per kW billing demand per Month

First 3,000 kWh @ \$ 0.0838 per kWh
Next 87,000 kWh @ \$ 0.0731 per kWh
All Over 90,000 kWh @ \$ 0.0659 per kWh

For the next 275 kWh per kW billing demand per Month

First 6,000 kWh @ \$ 0.0760 per kWh
Next 134,000 kWh @ \$ 0.0681 per kWh
All Over 140,000 kWh @ \$ 0.0609 per kWh

For all over 400 kWh per kW billing demand per Month

All kWh @ \$ 0.0592 per kWh

FUEL (ENERGY) RIDER

The City's approved FUEL (ENERGY) charge over or under the Rates set forth above, if any, will apply to all service supplied under this Schedule.

DEFINITION OF "MONTH"

The term "month" as used in the Schedule means the period intervening between meter readings for the purposes of monthly billing, such readings being taken once a month.

MEDIUM GENERAL SERVICE (Continued)**DETERMINATION OF BILLING DEMAND**

The City will install a permanent demand meter when the monthly consumption of the Customer equals or exceeds 3,000 kWh, or when tests indicate a demand of 15 kW or more; however, at its option, the City may install such a meter for any Customer served under this Schedule.

The demand for billing purposes each month shall be the greater of: (a) the maximum integrated thirty-minute demand in the current month, (b) 50 percent of the customer's contract demand, or (c) 30 kilowatts.

MINIMUM BILL

The minimum bill shall be one of the following at the City's option:

- (a) \$ 1.67 per kW per month of contract demand. The City will choose this option when a demand meter is to be installed and when its standard long form contract is used. If the Customer's measured demand exceeds the contract demand, the City may, at any time, establish the minimum as covered in (b) below.
- (b) \$ 1.67 per kW per month of the maximum integrated demand in the previous twelve months, including the month for which the bill is rendered. The City will choose this option when a demand meter is to be installed and when its standard long form contract will not be used.
- (c) Not less than \$56.07.

POWER FACTOR CORRECTION

When the average monthly power factor of the Customer's power requirements is less than 85 percent, the City may correct the integrated demand in kilowatts for that month by multiplying by 85 percent and dividing by the average power factor in percent for that month.

SOLAR APPLICATIONS

The City's Energy Department must approve any and all solar installations prior to construction.

BACKSTAND GENERATION

The City's Energy Department must approve any and all generation installations that tie directly back to the service connection to insure proper transfer switches and safety measures are in place.

MEDIUM GENERAL SERVICE (Continued)

CODE OF ORDINANCES

For other rules and regulations regarding City supplied electrical service, can be seen in the City of Kings Mountain's Code of Ordinance

SALES TAX

Any applicable North Carolina Sales Tax will be added to the above charges.

CONTRACT PERIOD

Each customer shall enter into a contract to purchase electricity from the City for a minimum original term of one (1) year, and thereafter from year to year upon the condition that either party can terminate the contract at the end of the original term, or at any time thereafter, by giving at least sixty (60) days previous notice of such termination in writing; but the City may require a contract for a longer original term of years where the requirement is justified by the circumstances.

Effective for billing on or after March 31, 2019.

CITY OF KINGS MOUNTAIN, N.C.
SCHEDULE 3-3
LARGE GENERAL SERVICE (>500 kW)
Effective with March 31, 2019 Billing

AVAILABILITY

Available to the individual customer whose monthly demand is 500kW or greater in any three months of the preceding twelve months.

Service under this Schedule shall be used solely by the contracting customer in a single enterprise, located entirely on single contiguous premises.

This Schedule is not available to the individual customer who qualifies for a residential schedule; and power delivered hereunder shall not be used for resale or exchange or in parallel with other electric power, or as a substitute for power contracted for or which may be contracted for under any other schedule of the City, except at the option of the City, under special terms and conditions expressed in writing in the contract with the Customer.

The obligations of the City in regard to supplying power are dependent upon its securing the retaining all necessary rights-of-ways, privileges, franchises and permits, for the delivery of such power, and the City shall not be liable to any customer or applicant for power in the event it is delayed in, or is prevented from furnishing the power by its failure to secure and retain such rights-of-way, rights, privileges, franchise, and permits.

TYPE OF SERVICE

The City will furnish 60 Hertz service through one meter, at one delivery point, at one of the following approximate voltages, where available:

Single-phase, 120/240 volts; or

3 phase, 208Y/120 volts, 480Y/277 volts; or

3 phase voltages other than the foregoing, but only at the City's option, and provided that the size of the Customer's contract warrants a substation solely to serve that Customer, and further provided that the Customer furnish suitable outdoor space on the premises to accommodate a ground-type transformer installation, or substation, or a transformer vault built in accordance with the City's specifications.

The type of service supplied will depend upon the voltage available. Prospective customers should ascertain the available voltage by inquiry at the office of the City before purchasing equipment.

LARGE GENERAL SERVICE (Continued)

Motors of less than 5 HP may be single-phase. All motors of more than 5 HP must be equipped with starting compensators and all motors of more than 25 HP must be of the slip ring type except that the City reserves the right; when in its opinion the installation would not be detrimental to the service of the City, to permit other types of motors.

RATE:

Minimum Demand 30 kW
Minimum Bill \$ 84.10

I. Basic Facilities Charge \$ 84.10

II. First 30 kW Billing Demand No Charge
All over 30 kW of Billing Demand \$ 8.42 per kW

III. For the First 125 kWh per kW billing demand per Month

First 3,000 kWh @ \$ 0.0738 per kWh
Next 87,000 kWh @ \$ 0.0715 per kWh
All Over 90,000 kWh @ \$ 0.0681 per kWh

For the next 275 kWh per kW billing demand per Month

First 6,000 kWh @ \$ 0.0642 per kWh
Next 134,000 kWh @ \$ 0.0614 per kWh
All Over 140,000 kWh @ \$ 0.0586 per kWh

For all over 400 kWh per kW billing demand per Month

All kWh @ \$ 0.0559 per kWh

FUEL (ENERGY) RIDER

The City's approved FUEL (ENERGY) charge over or under the Rates set forth above, if any, will apply to all service supplied under this Schedule.

DEFINITION OF "MONTH"

The term "month" as used in the Schedule means the period intervening between meter readings for the purposes of monthly billing, such readings being taken once a month.

LARGE GENERAL SERVICE (Continued)**DETERMINATION OF BILLING DEMAND**

The City will install a permanent demand meter when the monthly consumption of the Customer equals or exceeds 3,000 kWh, or when tests indicate a demand of 15 kW or more; however, at its option, the City may install such a meter for any Customer served under this Schedule.

The demand for billing purposes each month shall be the greater of: (a) the maximum integrated thirty-minute demand in the current month, (b) 50 percent of the customer's contract demand, or (c) 30 kilowatts.

MINIMUM BILL

The minimum bill shall be one of the following at the City's option:

(a) \$ 1.67 per kW per month of contract demand. The City will choose this option when a demand meter is to be installed and when its standard long form contract is used. If the Customer's measured demand exceeds the contract demand, the City may, at any time, establish the minimum as covered in (b) below.

(b) \$ 1.67 per kW per month of the maximum integrated demand in the previous twelve months, including the month for which the bill is rendered. The City will choose this option when a demand meter is to be installed and when its standard long form contract will not be used.

POWER FACTOR CORRECTION

When the average monthly power factor of the Customer's power requirements is less than 85 percent, the City may correct the integrated demand in kilowatts for that month by multiplying by 85 percent and dividing by the average power factor in percent for that month.

SOLAR APPLICATIONS

The City's Energy Department must approve any and all solar installations prior to construction.

BACKSTAND GENERATION

The City's Energy Department must approve any and all generation installations that tie directly back to the service connection to insure proper transfer switches and safety measures are in place.

LARGE GENERAL SERVICE (Continued)

CODE OF ORDINANCES

SALES TAX

Any applicable North Carolina Sales Tax will be added to the above charges.

CONTRACT PERIOD

Each customer shall enter into a contract to purchase electricity from the City for a minimum original term of one (1) year, and thereafter from year to year upon the condition that either party can terminate the contract at the end of the original term, or at any time thereafter, by giving at least sixty (60) days previous notice of such termination in writing; but the City may require a contract for a longer original term of years where the requirement is justified by the circumstances.

Effective for billing on or after March 31, 2019.

CITY OF KINGS MOUNTAIN, N.C.
SCHEDULE 4-1
SMALL INDUSTRIAL SERVICE (<100 kW)
Effective with March 31, 2019 Billing

AVAILABILITY

Available only to establishments classified as "Manufacturing Industries" by the Standard Industrial Classification Manual, 1957 or later revision, published by The Bureau of the Budget, United States Government, and where more than 50% of the electric consumption of such establishment is used for its manufacturing processes and whose monthly demand is 100 kW or less.

Service under this Schedule shall be used solely by the contracting customer in a single enterprise, located entirely on single contiguous premises.

This Schedule is not available for auxiliary or breakdown service and power delivered hereunder shall not be used for resale or exchange or in parallel with other electric power, or as a substitute for power contracted for or which may be contracted for under any other schedule of the City, except at the option of the City, under special terms and conditions expressed in writing in the contract with the Customer.

The obligations of the City in regard to supplying power are dependent upon its securing the retaining all necessary rights-of-ways, privileges, franchises and permits, for the delivery of such power, and the City shall not be liable to any customer or applicant for power in the event it is delayed in, or is prevented from furnishing the power by its failure to secure and retain such rights-of-way, rights, privileges, franchise, and permits.

TYPE OF SERVICE

The City will furnish 60 Hertz service through one meter, at one delivery point, at one of the following approximate voltages, where available:

Single-phase, 120/240 volts; or

3 phase, 208Y/120 volts, 480Y/277 volts; or

3 phase voltages other than the foregoing, but only at the City's option, and provided that the size of the Customer's contract warrants a substation solely to serve that Customer, and further provided that the Customer furnish suitable outdoor space on the premises to accommodate a ground-type transformer installation, or substation, or a transformer vault built in accordance with the City's specifications.

The type of service supplied will depend upon the voltage available. Prospective customers should ascertain the available voltage by inquiry at the office of the City before purchasing equipment.

SMALL INDUSTRIAL SERVICE (Continued)

Motors of less than 5 HP may be single-phase. All motors of more than 5 HP must be equipped with starting compensators and all motors of more than 25 HP must be of the slip ring type except that the City reserves the right, when in its opinion the installation would not be detrimental to the service of the City, to permit other types of motors.

RATE:

Minimum Demand 30 kW
Minimum Bill \$ 1.67 per kW

I. Basic Facilities Charge \$ 20.18

II. First 30 kW Billing Demand No Charge
All over 30 kW of Billing Demand \$ 5.32 per kW

III. For the First 125 kWh per kW billing demand per Month

First 3,000 kWh @ \$ 0.1225 per kWh
Next 87,000 kWh @ \$ 0.0755 per kWh
All Over 90,000 kWh @ \$ 0.0648 per kWh

For the next 275 kWh per kW billing demand per Month

First 140,000 kWh @ \$ 0.0693 per kWh
All Over 140,000 kWh @ \$ 0.0614 per kWh

For all over 400 kWh per kW billing demand per Month

All kWh @ \$ 0.0592 per kWh

FUEL (ENERGY) RIDER

The City's approved FUEL(ENERGY) charge over or under the Rates set forth above, if any, will apply to all service supplied under this Schedule.

DEFINITION OF "MONTH"

The term "month" as used in the Schedule means the period intervening between meter readings for the purposes of monthly billing, such readings being taken once a month.

SMALL INDUSTRIAL SERVICE (Continued)**DETERMINATION OF BILLING DEMAND**

The City will install a permanent demand meter when the monthly consumption of the Customer equals or exceeds 3,000 kWh, or when tests indicate a demand of 15 kW or more; however, at its option, the City may install such a meter for any Customer served under this Schedule.

The demand for billing purposes each month shall be the greater of: (a) the maximum integrated thirty-minute demand in the current month, (b) 50 percent of the customer's contract demand, or (c) 30 kilowatts.

MINIMUM BILL

The minimum bill shall be one of the following at the City's option:

- (a) \$ 1.67 per kW per month of contract demand. The City will choose this option when a demand meter is to be installed and when its standard long form contract is used. If the Customer's measured demand exceeds the contract demand, the City may, at any time, establish the minimum as covered in (b) below.
- (b) \$ 1.67 per kW per month of the maximum integrated demand in the current month. The City will choose this option when a demand meter is to be installed and when its standard long form contract will not be used.
- (c) Not less than \$50.10.

POWER FACTOR CORRECTION

When the average monthly power factor of the Customer's power requirements is less than 85 percent, the City may correct the integrated demand in kilowatts for that month by multiplying by 85 percent and dividing by the average power factor in percent for that month.

SOLAR APPLICATIONS

The City's Energy Department must approve any and all solar installations prior to construction.

SMALL INDUSTRIAL SERVICE (Continued)**BACKSTAND GENERATION**

The City's Energy Department must approve any and all generation installations that tie directly back to the service connection to insure proper transfer switches and safety measures are in place.

SALES TAX

Any applicable North Carolina Sales Tax will be added to the above charges.

CONTRACT PERIOD

Each customer shall enter into a contract to purchase electricity from the City for a minimum original term of one (1) year, and thereafter from year to year upon the condition that either party can terminate the contract at the end of the original term, or at any time thereafter, by giving at least sixty (60) days previous notice of such termination in writing; but the City may require a contract for a longer original term of years where the requirement is justified by the circumstances.

Effective for billing on or after March 31, 2019.

CITY OF KINGS MOUNTAIN, N.C.
SCHEDULE 4-2
MEDIUIM INDUSTRIAL SERVICE (100 kW-500 kW)
Effective with March 31, 2019 Billing

AVAILABILITY

Available only to establishments classified as "Manufacturing Industries" by the Standard Industrial Classification Manual, 1957 or later revision, published by The Bureau of the Budget, United States Government, and where more than 50% of the electric consumption of such establishment is used for its manufacturing processes and whose monthly demand exceeds 100 kW in any three months of the preceding twelve months, but is less than 500 kW.

Service under this Schedule shall be used solely by the contracting customer in a single enterprise, located entirely on single contiguous premises.

This Schedule is not available for auxiliary or breakdown service and power delivered hereunder shall not be used for resale or exchange or in parallel with other electric power, or as a substitute for power contracted for or which may be contracted for under any other schedule of the City, except at the option of the City, under special terms and conditions expressed in writing in the contract with the Customer.

The obligations of the City in regard to supplying power are dependent upon its securing the retaining all necessary rights-of-ways, privileges, franchises and permits, for the delivery of such power, and the City shall not be liable to any customer or applicant for power in the event it is delayed in, or is prevented from furnishing the power by its failure to secure and retain such rights-of-way, rights, privileges, franchise, and permits.

TYPE OF SERVICE

The City will furnish 60 Hertz service through one meter, at one delivery point, at one of the following approximate voltages, where available:

Single-phase, 120/240 volts; or

3 phase, 208Y/120 volts, 480Y/277 volts; or

3 phase voltages other than the foregoing, but only at the City's option, and provided that the size of the Customer's contract warrants a substation solely to serve that Customer, and further provided that the Customer furnish suitable outdoor space on the premises to accommodate a ground-type transformer installation, or substation, or a transformer vault built in accordance with the City's specifications.

MEDIUM INDUSTRIAL SERVICE (Continued)

The type of service supplied will depend upon the voltage available. Prospective customers should ascertain the available voltage by inquiry at the office of the City before purchasing equipment.

Motors of less than 5 HP may be single-phase. All motors of more than 5 HP must be equipped with starting compensators and all motors of more than 25 HP must be of the slip ring type except that the City reserves the right, when in its opinion the installation would not be detrimental to the service of the City, to permit other types of motors.

RATE:

Minimum Demand 30 kW

Minimum Bill \$ 56.07

I. Basic Facilities Charge \$ 56.07

II. First 30 kW Billing Demand No Charge

All over 30 kW of Billing Demand \$ 6.17 per kW

III. For the First 125 kWh per kW billing demand per Month

First 3,000 kWh @ \$ 0.0777 per kWh

Next 87,000 kWh @ \$ 0.0676 per kWh

All Over 90,000 kWh @ \$ 0.0626 per kWh

For the next 275 kWh per kW billing demand per Month

First 140,000 kWh @ \$ 0.0678 per kWh

All Over 140,000 kWh @ \$ 0.0575 per kWh

For all over 400 kWh per kW billing demand per Month

All kWh @\$ 0.0542 per kWh

FUEL (ENERGY) RIDER

The City's approved FUEL (ENERGY) charge over or under the Rates set forth above, if any, will apply to all service supplied under this Schedule.

MEDIUM INDUSTRIAL SERVICE (Continued)**DEFINITION OF "MONTH"**

The term "month" as used in the Schedule means the period intervening between meter readings for the purposes of monthly billing, such readings being taken once a month.

DETERMINATION OF BILLING DEMAND

The City will install a permanent demand meter when the monthly consumption of the Customer equals or exceeds 3,000 kWh, or when tests indicate a demand of 15 kW or more; however, at its option, the City may install such a meter for any Customer served under this Schedule.

The demand for billing purposes each month shall be the greater of : (a) the maximum integrated thirty-minute demand in the current month, (b) 50 percent of the customer's contract demand, or (c) 30 kilowatts.

MINIMUM BILL

The minimum bill shall be one of the following at the City's option:

- (a) \$ 1.67 per kW per month of contract demand. The City will choose this option when a demand meter is to be installed and when its standard long form contract is used. If the Customer's measured demand exceeds the contract demand, the City may, at any time, establish the minimum as covered in (b) below.
- (b) \$ 1.67 per kW per month of the maximum integrated demand in the current month. The City will choose this option when a demand meter is to be installed and when its standard long form contract will not be used.
- (c) Not less than \$56.07.

POWER FACTOR CORRECTION

When the average monthly power factor of the Customer's power requirements is less than 85 percent, the City may correct the integrated demand in kilowatts for that month by multiplying by 85 percent and dividing by the average power factor in percent for that month.

MEDIUM INDUSTRIAL SERVICE (Continued)

SOLAR APPLICATIONS

The City's Energy Department must approve any and all solar installations prior to construction.

BACKSTAND GENERATION

The City's Energy Department must approve any and all generation installations that tie directly back to the service connection to insure proper transfer switches and safety measures are in place.

CODE OF ORDINANCES

For other rules and regulations regarding City supplied electrical service, can be seen in the City of Kings Mountain's Code of Ordinance

SALES TAX

Any applicable North Carolina Sales Tax will be added to the above charges.

CONTRACT PERIOD

Each customer shall enter into a contract to purchase electricity from the City for a minimum original term of one (1) year, and thereafter from year to year upon the condition that either party can terminate the contract at the end of the original term, or at any time thereafter, by giving at least sixty (60) days previous notice of such termination in writing; but the City may require a contract for a longer original term of years where the requirement is justified by the circumstances.

Effective for billing on or after March 31, 2019.

CITY OF KINGS MOUNTAIN, N.C.
SCHEDULE 4-3
LARGE INDUSTRIAL SERVICE (>500 kW)
Effective with March 31, 2019 Billing

AVAILABILITY

Available only to establishments classified as "Manufacturing Industries" by the Standard Industrial Classification Manual, 1957 or later revision, published by The Bureau of the Budget, United States Government, and where more than 50% of the electric consumption of such establishment is used for its manufacturing processes and whose monthly demand is 500 kW or greater in any three months of the preceding twelve months.

Service under this Schedule shall be used solely by the contracting customer in a single enterprise, located entirely on single contiguous premises.

This Schedule is not available for auxiliary or breakdown service and power delivered hereunder shall not be used for resale or exchange or in parallel with other electric power, or as a substitute for power contracted for or which may be contracted for under any other schedule of the City, except at the option of the City, under special terms and conditions expressed in writing in the contract with the Customer.

The obligations of the City in regard to supplying power are dependent upon its securing the retaining all necessary rights-of-ways, privileges, franchises and permits, for the delivery of such power, and the City shall not be liable to any customer or applicant for power in the event it is delayed in, or is prevented from furnishing the power by its failure to secure and retain such rights-of-way, rights, privileges, franchise, and permits.

TYPE OF SERVICE

The City will furnish 60 Hertz service through one meter, at one delivery point, at one of the following approximate voltages, where available:

Single-phase, 120/240 volts; or

3 phase, 208Y/120 volts, 480Y/277 volts; or

3 phase voltages other than the foregoing, but only at the City's option, and provided that the size of the Customer's contract warrants a substation solely to serve that Customer, and further provided that the Customer furnish suitable outdoor space on the premises to accommodate a ground-type transformer installation, or substation, or a transformer vault built in accordance with the City's specifications.

LARGE INDUSTRIAL SERVICE (Continued)

The type of service supplied will depend upon the voltage available. Prospective customers should ascertain the available voltage by inquiry at the office of the City before purchasing equipment.

Motors of less than 5 HP may be single-phase. All motors of more than 5 HP must be equipped with starting compensators and all motors of more than 25 HP must be of the slip ring type except that the City reserves the right, when in its opinion the installation would not be detrimental to the service of the City, to permit other types of motors.

RATE:

Minimum Demand 30 kW

Minimum Bill \$ 84.10

I. Basic Facilities Charge \$ 84.10

II. First 30 kW Billing Demand No Charge

All over 30 kW of Billing Demand \$ 8.42 per kW

III. For the First 125 kWh per kW billing demand per Month

First 3,000 kWh @ \$ 0.0681 per kWh

Next 87,000 kWh @\$ 0.0659per kWh

All Over 90,000 kWh @ \$ 0.0637 per kWh

For the next 275 kWh per kW billing demand per Month

First 140,000 kWh @ \$ 0.0560 per kWh

All Over 140,000 kWh @ \$ 0.0535 per kWh

For all over 400 kWh per kW billing demand per Month

All kWh @ \$ 0.0519 per kWh

FUEL (ENERGY) RIDER

The City's approved FUEL (ENERGY) charge over or under the Rates set forth above, if any, will apply to all service supplied under this Schedule.

LARGE INDUSTRIAL SERVICE (Continued)**DEFINITION OF "MONTH"**

The term "month" as used in the Schedule means the period intervening between meter readings for the purposes of monthly billing, such readings being taken once a month.

DETERMINATION OF BILLING DEMAND

The City will install a permanent demand meter when the monthly consumption of the Customer equals or exceeds 3,000 kWh, or when tests indicate a demand of 15 kW or more; however, at its option, the City may install such a meter for any Customer served under this Schedule.

The demand for billing purposes each month shall be the greater of: (a) the maximum integrated thirty-minute demand in the current month, (b) 50 percent of the customer's contract demand, or (c) 30 kilowatts.

MINIMUM BILL

The minimum bill shall be one of the following at the City's option:

- (a) \$ 1.67 per kW per month of contract demand. The City will choose this option when a demand meter is to be installed and when its standard long form contract is used. If the Customer's measured demand exceeds the contract demand, the City may, at any time, establish the minimum as covered in (b) below.
- (b) \$ 1.67 per kW per month of the maximum integrated demand in the current month. The City will choose this option when a demand meter is to be installed and when its standard long form contract will not be used.

POWER FACTOR CORRECTION

When the average monthly power factor of the Customer's power requirements is less than 85 percent, the City may correct the integrated demand in kilowatts for that month by multiplying by 85 percent and dividing by the average power factor in percent for that month.

LARGE INDUSTRIAL SERVICE (Continued)

SOLAR APPLICATIONS

The City's Energy Department must approve any and all solar installations prior to construction.

BACKSTAND GENERATION

The City's Energy Department must approve any and all generation installations that tie directly back to the service connection to insure proper transfer switches and safety measures are in place.

CODE OF ORDINANCES

For other rules and regulations regarding City supplied electrical service, can be seen in the City of Kings Mountain's Code of Ordinance

SALES TAX

Any applicable North Carolina Sales Tax will be added to the above charges.

CONTRACT PERIOD

Each customer shall enter into a contract to purchase electricity from the City for a minimum original term of one (1) year, and thereafter from year to year upon the condition that either party can terminate the contract at the end of the original term, or at any time thereafter, by giving at least sixty (60) days previous notice of such termination in writing; but the City may require a contract for a longer original term of years where the requirement is justified by the circumstances.

Effective for billing on or after March 31, 2019.

CITY OF KINGS MOUNTAIN, N.C.
SCHEDULE 5
HOUSING AUTHORITY
Effective with March 31, 2019 Billing

AVAILABILITY

Available only to the Kings Mountain Housing Authority.

TYPE OF SERVICE

The City will furnish 60 Hertz service through one meter, at one delivery point, at one of the following approximate voltages where available:

Single phase, 120/240 volts; or
Three phase, 208Y/120 volts; or
other available voltages at the City's option.

Motors in excess of 2 HP, frequently started, or arranged for automatic control, must be of a type to take the minimum starting current and must be equipped with controlling devices approved by the City.

Three phase service will be supplied, if available. Where three phase and single phase service is supplied through the same meter, it will be billed on the rate below. Where three phase service is supplied through a separate meter, it will be billed on the applicable General Service Schedule.

RATE:

Basic Facilities Charge \$ 9.00
All kWh @ \$ 0.0932 per kWh

FUEL (ENERGY) RIDER

The City's approved FUEL (ENERGY) over or under the Rate set forth above, if any, will apply to all service supplied under this Schedule.

EXCESS CAPACITY CHARGE

Demand meters may be installed by the City on any installation served under this Schedule. When the measured hourly demand in any month exceeds 10 kW, a charge of \$2.00 will be made for each whole kW in excess of 10, which charge will be in addition to the charge for the kWh used.

HOUSING AUTHORITY (continued)

SOLAR APPLICATIONS

The City's Energy Department must approve any and all solar installations prior to construction.

BACKSTAND GENERATION

The City's Energy Department must approve any and all generation installations that tie directly back to the service connection to insure proper transfer switches and safety measures are in place.

CODE OF ORDINANCES

For other rules and regulations regarding City supplied electrical service, can be seen in the City of Kings Mountain's Code of Ordinance

SALES TAX

Any applicable North Carolina Sales Tax will be added to the above charges.

CONTRACT PERIOD

The original term of this contract shall be one year and thereafter until terminated by either party on thirty day's written notice.

Effective for billing on or after March 31, 2019.

CITY OF KINGS MOUNTAIN, N.C.
SCHEDULE 6
OUTDOOR LIGHTING SERVICE
Effective with March 31, 2019 Billing

AVAILABILITY

Available to the following customer groups as indicated:

Residential Customers:

Residential electric customers have a choice of two lighting options. Options include one LED lamp, bracket mount style on wooden pole, or one decorative light and pole. Please note that decorative lighting options are offered as underground service only. Standard Residential and Decorative lighting request will require a 3 year contract.

Commercial/Industrial Customers:

Commercial and Industrial Customers have several lighting options to serve their needs, options include; general security bracket mounted lighting for small areas or parking lots, flood style lighting for larger areas or parking lots, and decorative lighting for a more upscale design for both general area and parking lots. Standard Commercial and Decorative lighting request will require a 3 year contract.

Special condition lighting installations may require additional work outside of the normal monthly charges, these additional onetime charges will be discussed prior to work performed and it will be the Customer's sole responsibility to pay this cost prior to any lighting installations.

RATE: Existing City Code - Associated Charge

The type of light to be installed on any roadway must be approved by the Energy Services Director.

Service using overhead conductors is not available in any area designated by the City as an underground distribution area, or in any area, location, or premises being served from an underground source.

FUEL (ENERGY) RIDER

The City's approved FUEL (ENERGY) charge over or under the Rates set forth above, if any, will apply to all service supplied under this Schedule.

OUTDOOR LIGHTING SERVICE (Continued)

EXPLANATORY NOTES

(1) Lamps will burn from approximately one half-hour after sunset until approximately one half-hour before sunrise. The City will replace burned-out lamps and otherwise maintain the luminaries during regular daytime working hours as soon as practicable following notification by the Customer of the necessity.

(2) Luminaries will be installed only on City-owned poles or structures. All facilities necessary for service under this Schedule, including fixtures, lamps, controls, poles, or other structures, hardware, transformers, conductors, and other appurtenances shall be owned and maintained by the City.

(3) Equipment (such as disconnecting switches) other than that supplied by the City as standard is not available under this Schedule, and shall not be installed by the Customer.

(4) This Schedule is not available for seasonal or other part-time operation of outdoor luminaries.

(5) Location of the luminaire or luminaries shall be designated by the Customer, but the location must be within the customer's property, as well as within the distance which can be reached by a secondary extension from the City's nearest distribution facilities. Customer will be responsible for ensuring shrubbery, trees and tree limbs are kept clear of the light and pole, in order to accommodate proper lighting and maintenance. The City is not responsible for tree trimming around light.

SALES TAX

Any applicable North Carolina Sales Tax will be added to the above charges.

CONTRACT PERIOD

The original term of any new LED Outdoor Lighting contract will be for a of 3years. Contracts will continue after the original term until terminated by either party on thirty days written notice, and the City may require a deposit not to exceed one-half of the revenue for the term of the contract, such deposit to be returned at the end of the contract period, provided the Customer has met all of the terms of the contract. Minimum term of contract for specific situations shall be as follows:

(a) Three years for all luminaries designated as standard residential lighting by the City, bracket mounted on standard wood poles served by overhead or underground conductors.

(c) Three years for all luminaries designated as standard commercial/industrial lighting by the City, and mounted on standard wood poles. Other than standard wood pole attachments will be based upon a minimum contract term agreeable by both parties.

(d) Three years for all luminaries or supports designated by the City as decorative.

(f) Multiply Light installations may require additional work outside of the normal monthly charges, these additional onetime charges will be discussed prior to work performed and it will be the Customer's sole responsibility to pay this cost prior to any lighting installations.

(g) The above contract terms do not supersede any previous outdoor lighting contract lawfully signed by the customer for outdoor lighting.

Effective for billing on March 31, 2019.

CITY OF KINGS MOUNTAIN, N.C.
SCHEDULE 7
RENEWABLE ENERGY GENERATION SERVICE
Effective with March 31, 2019 Billing

AVAILABILITY

Available only to applicable customers who operate an approved renewable energy generating system, located and used at the customer's primary residence or business. The rate capacity of the generation system shall not exceed 25 kilowatts for a residential system and 150 kilowatts for a non-residential system. The generating system that is connected in parallel operation with service from the City, must be manufactured, installed and operated in accordance with governmental and industry standards, in accordance with all requirements of the local code official and must fully conform with the City's application and attachments.

TYPE OF SERVICE

The City will furnish 60 Hertz service through one meter, at one delivery point, at one of the following approximate voltages where available:

Single-phase, 120/240 volts; or

Three phase, 208Y/120 volts, 480/277 volts; or other available voltages at the City's option.

Three phase service will be supplied, if available.

Where three phase and or single phase service is supplied at the meter, this usage will be credited based on the Monthly Credit rate and standards.

MONTHLY CREDIT

\$0.023077 cents per kilowatt hour for all kilowatt hours.

Total bill credit balances, if any, will be issued as a separate item on the customer's existing bill. The credit will be calculated and the credit will be used in the reduction of the customer's current charges based on other rate schedules that apply.

RENEWABLE ENERGY GENERATION SERVICE (Continued)**MONTHLY CREDIT ADJUSTMENT**

The monthly credit per kilowatt hour may be adjusted up or down each year based on the City's wholesale Purchase Power Costs. This adjustment will be applicable to all customers within this rate schedule.

This schedule may be amended or adjusted from time to time by the City.

MONTHLY CHARGE

Administrative Charge \$7.00 per month

Basic Facilities Charge per Meter \$13.46 per month

These monthly charges will be required by the customer even when there is no credit based on kilowatt hour usage.

PAYMENTS

Bills are due when rendered and are payable upon receipt. Guidelines of such payments are explained on the bill the customer receives. These guidelines must be followed to avoid any late fees and or service disconnection.

SALES TAX

There are no sales taxes paid by the City for purchased electricity.

There will be North Carolina Sales Tax charges to all monthly charges by the City.

CONTRACT PERIOD

The original terms of this contract shall be for one year, and thereafter shall be renewed for successive one-year periods. After the first year, either party can terminate service under this schedule by giving thirty days written notice.

RENEWABLE ENERGY GENERATION SERVICE (Continued)**SPECIAL CONDITIONS AND PROCEDURES**

The customer must meet with the City's Energy Services Director prior to any installation and/or commitment, so as to ensure that the City can provide the necessary electrical infrastructure to meet the customer's request. The customer must have the approval of the City prior to receiving service under this schedule.

The customer's service shall be metered with one meter. The meter measures the amount of energy generated by the customer's alternative energy generator.

The City reserves the right to test the customer's alternative energy generator and associated equipment for compliance with the applicable interface criteria. Should it be determined that a customer's installation is in violation, the City will disconnect all alternative energy sources from the City's distribution system and it will remain disconnected until the installation is brought back into compliance per City approval.

The customer must at all times, assure the equipment used to protect against back-feed is in proper working condition so as to assure that no voltage and/or current is supplied to the City's distribution system in the event of a City distribution outage.

Effective for billing on or after March 31, 2019.
